Notes to the Condensed Interim Consolidated Financial Statements (in thousands of Canadian dollars unless otherwise stated) - Unaudited

October 31, 2019

1. Corporate Information

Starcore International Mines Ltd. is the parent company of its consolidated group (the "Company" or "Starcore") and was incorporated in Canada with its head office located at Suite 750 – 580 Hornby Street, Vancouver, British Columbia, V6C 3B6.

Starcore is engaged in exploring, extracting and processing gold and silver through its wholly-owned subsidiary, Compañia Minera Peña de Bernal, S.A. de C.V. ("Bernal"), which owns the San Martin mine in Queretaro, Mexico. The Company recently sold Altiplano GoldSilver S.A. de C.V ("Altiplano"), which owns the gold and silver concentrate processing plant in Matehuala, Mexico (see note 6).

The Company is also engaged in acquiring mining related operating assets and exploration assets in North America directly and through corporate acquisitions.

2. Basis of Preparation

a) Statement of Compliance

These unaudited condensed interim consolidated financial statements for the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim consolidated financial statements, for the six month period ended October 31, 2019, have been prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting, and do not include all the information required for full annual financial statements.

These condensed interim financial statements should be read in conjunction with the Company's April 30, 2019 audited annual financial statements.

The financial statements were authorized for issue by the Board of Directors on December 10, 2019.

b) Basis of Measurement

The consolidated financial statements have been prepared on a historical cost basis, except certain financial instruments, which are measured at fair value, as explained in the Company's accounting policies discussed in note 3 of the Company's April 30, 2019 audited annual financial statements.

The consolidated financial statements are presented in Canadian dollars, which is also the parent company's functional currency, and all values are rounded to the nearest thousand dollars, unless otherwise indicated.

The preparation of consolidated financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 4 of the Company's April 30, 2019 audited annual financial statements.

c) Basis of Consolidation

These consolidated financial statements include the accounts of the Company and all of its subsidiaries, which are entities controlled by the Company. Control exists when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from the entity's activities. Subsidiaries are included in the consolidated financial results of the Company from the effective date of acquisition up to the effective date of disposal or loss of control. The Company's wholly-owned subsidiary, Bernal, along with various other subsidiaries, carry out their operations in Mexico, U.S.A. and in Canada.

All intra-group transactions, balances, income and expenses are eliminated, in full, on consolidation.

3. Cash and Cash Equivalents

On September 5, 2019, the Company redeemed its Guaranteed Investment Certificate ("GIC") prior to its maturity date of June 24, 2020. At October 31, 2019, the Company's GIC therefore had a market value of \$nil (April 30, 2019 - \$1,011).

Sale of Altiplano Facility

On August 5, 2015, the Company acquired Cortez Gold Corp. ("Cortez") (TSXV: CUT) in an all-share transaction completed pursuant to a court approved Plan of Arrangement under the Business Corporations Act (British Columbia). Pursuant to the acquisition, the purchase price was allocated based on management's best estimates and assumptions, after taking into account all relevant information available. As a result, apart from working capital allocations, \$6,094 was allocated to plant, machinery and equipment for the Altiplano Plant, which is a facility which processes third party gold and silver concentrate in Matehuala, Mexico owned by Cortez subsidiary Altiplano.

During the period ending October 31, 2019, the Company received and accepted an offer to purchase 100% of the shares of Altiplano for US\$1.6 million. The stock purchase agreement, dated July 5, 2019, requires the payment of the US\$1.6 million in installments to May, 2020 as to US\$0.5 million on closing (received), US\$0.5 million on August 31, 2019 (received), and US\$0.2 million each 3 months from November 30, 2019 (received subsequent to October 31, 2019) to May 31, 2020. As a result, management decided to write down the plant and land at April 30, 2019 to US \$1,600, less estimated selling costs of \$100. The Company recorded an impairment

of \$4,804 to the Statements of Operations and Comprehensive Income (Loss) during the year ended April 30, 2019. Remaining operating working capital amounts of Altiplano of \$39 have been expensed to the income statement in the current period.

Sale of San Pedrito

On March 21, 2017, the Company finalized the sale of its San Pedrito Property, a non-core asset located in Queretaro, Mexico for Mexican Pesos ("MXN\$") 192,784,331. The San Pedrito property was part of Starcore's original acquisition in 2007, when the Company acquired the San Martin Mine from Goldcorp for US\$26 million. The disposition of San Pedrito was recorded during the year ended April 30, 2017 and a gain of \$7,128 was reported on the Statement of Operations and Comprehensive Income (Loss). During the prior year ending April 30, 2018, the Company received MXN\$ 15,000,000 (\$1,027) and interest of MXN\$ 2,300,000 (\$159) on 6 ha of the remaining 14 ha of parcels to be paid. The Company did not anticipate receiving any additional funds for the sale of this property and therefore has made an allowance for the remaining receivable of \$441 to the Statements of Operations and Comprehensive Income (Loss).

Pursuant to the Acquisition of AJC, the Company has acquired the rights to exploration properties as follows:

Annual payments commencing October 15, 2018 are \$60 (paid), \$80 (paid), \$100, \$120, \$140 and \$400 respectively. c) Share-based Payments

The Company, in accordance with the policies of the TSX, was previously authorized to grant options to directors, officers, and employees to acquire up to 20% of the amount of stock outstanding. In January 2014, the Company's shareholders voted to cancel the Company's option plan and, as a result, the Company's Board of Directors may not grant further options. The Company's management and directors are reviewing alternative compensation arrangements for the Company's employees and directors.

The following is a summary of changes in options, which are still outstanding, for the periods ending October 31, 2019, April 30, 2019 and 2018:

d) Deferred Share Units ("DSU") & Restricted Share Units ("RSU")

Effective August 1, 2016, The Board of Directors approved the adoption of a Restricted Share Unit and Deferred Share Unit Plan (the "RSU/DSU Plan") as part of the Company's compensation arrangements for directors, officers, employees or consultants of the Company or a related entity of the Company. Although the RSU/DSU Plan is share-based, all vested RSUs and DSUs will be settled in cash. No common shares will be issued.

RSU

The RSU plan is for eligible members of the Board of Directors, eligible employees and eligible contractors. The RSUs vest over a period of three years from the date of grant, vesting as to one-third at the end of each calendar year. In addition to the vesting period, the Company has also set Performance Conditions that will accompany vested RSUs.

The Performance Conditions to be met are established by the Board at the time of grant of the RSU. RSUs that are permitted to be carried over to the succeeding years shall expire no later than August 1st of the third calendar year after the year in which the RSUs have been granted and will be terminated to the extent the performance objectives or other vesting criteria have not been met. The RSU share plan transactions during the period were as follows:

d) <u>Deferred Share Units ("DSU")</u> & Restricted Share Units ("RSU") – (cont'd)

Management has determined that 50% of the RSU's will be deemed payable on the vesting dates based on current performance criteria measures. As such only 50% of the RSU's have been valued at fair value of \$0.07 per share. The liability portion for the year ended October 31, 2019 is \$23 (April 30, 2019 - \$33) which has been included under Trades and Other Payables on the Statement of Financial Position. No RSU's were granted in the current fiscal year.

DSU

The Company introduced a DSU plan for eligible directors. The DSUs are paid in full in the form of a lump sum payment no later than August 1st of the calendar year immediately following the calendar year of termination of service. DSU Awards going forward will vest on each anniversary date of the grant over a period of 3 years. The DSU share plan transactions during the period were as follows:

	Units
Outstanding at April 30, 2018, April 30, 2019	
and October 31, 2019	1,010,000

Based on the fair value of \$0.07 per share, the Company has recorded a liability of \$68 under Trades and Other Payable on the Statement of Financial Position.

11. Financial Instruments

All significant financial assets, financial liabilities and equity instruments of the Company are either recognized or disclosed in the consolidated financial statements together with other information relevant for making a reasonable assessment of future cash flows, interest rate risk and credit risk. Cash and short-term investments are carried at their fair value. There are no material differences between the carrying values and the fair values of any other financial assets or liabilities. In the normal course of business, the Company's assets, liabilities and future transactions are impacted by various market risks, including currency risks associated with inventory, revenues, cost of sales, capital expenditures, interest earned on cash and the interest rate risk associated with floating rate debt.

a) Currency Risk

Currency risk is the risk to the Company's earnings that arises from fluctuations of foreign exchange rates and the degree of volatility of these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk.

At October 31, 2019, the Company had the following financial assets and liabilities denominated in CAD and denominated in MXN\$:

		MXN\$		
Cash	\$	1,078	\$	1,914
Other working capital amounts - net	·	(46)		3,762
Long-term liabilities	\$	(3,073)	\$	-

At October 31, 2019, US dollar amounts were converted at a rate of \$1.3164 Canadian dollars to \$1 US dollar and MXN\$ were converted at a rate of MXN\$19.2232 to \$1 US Dollar. A 10% increase or decrease in the US dollar exchange may increase or decrease annual earnings from mining operations by

approximately \$44. A 10% increase or decrease in the MXN\$ exchange rate will decrease or increase annual earnings from mining operations by approximately \$17.

b) Interest Rate Risk

The Company's cash earns interest at variable interest rates. While fluctuations in market rates do not have a material impact on the fair value of the Company's cash flows, future cash flows may be affected by interest rate fluctuations. The Company is not significantly exposed to interest rate fluctuations and interest rate risk consists of two components:

- (i) To the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk.
- (ii) To the extent that changes in prevailing market interest rates differ from the interest rates in the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk.

c) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is exposed to credit risk with respect to its cash and short-term investments, the balance of which at October 31, 2019 is \$2,725 (April 30, 2019 - \$2,549).

Cash of \$466 (April 30, 2019 - \$349) are held at a Mexican financial institution, cash of \$1,828 (April 30, 2019 - \$1,038) is held at a US financial institution and the remainder of \$431 (April 30, 2019 - \$151) and the cash equivalent of \$nil (April 30, 2019 - \$1,011) are held at a chartered Canadian financial institution; the Company is exposed to the risks of those financial institutions. The taxes receivable are comprised of Mexican VAT taxes receivable of \$1,212 (April 30, 2019 - \$2,462) and GST receivable of \$42 (April 30, 2019 - \$24), which are subject to review by the respective tax authority.

d) Liquidity Risk

Liquidity risk arises from the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements. The Company accomplishes this by achieving profitable operations and maintaining sufficient cash reserves. As at October 31, 2019, the Company was holding cash of \$2,725 (April 30, 2019- \$2,549).

Obligations due within twelve months						2	022 and
of October 31,	2019	2020		2021		1	beyond
Trade and other payables	\$ 2,751	\$	-	\$	-	\$	-
Short-term portion of loan payable	4,336		-		-		-
Reclamation and closure obligations	\$ -	\$	-	\$	-	\$	1,216

The Company's trade and other payables are due in the short term. Long-term obligations include the Company's reclamation and closure cost obligations, other long-term liabilities and deferred income taxes. Management believes that profits generated from the mine will be sufficient to meet its financial obligations.

e) Commodity Risk

Mineral prices and marketability fluctuate and any decline in mineral prices may have a negative effect on the Company. Mineral prices, particularly gold and silver prices, have fluctuated widely in recent years. The marketability and price of minerals which may be produced and sold by the Company will be affected by numerous factors beyond the control of the Company. These other factors include delivery uncertainties related to the proximity of its resources to processing facilities and extensive government regulations related to price, taxes, royalties, allowable production land tenure, the import and export of minerals and many other aspects of the mining business. Declines in mineral prices may have a negative effect on the Company. A 10% decrease or increase in metal prices may result in a decrease or increase of \$1,219 in revenue and net income.

12. Commitments and Related Party Transactions

Except as disclosed elsewhere in these interim condensed consolidated financial statements, the Company has the following commitments outstanding at October 31, 2019:

- a) As at October 31, 2019, the Company has shared lease commitments for office space of approximately \$144 per year, expiring at various dates up to April 2020, which includes minimum lease payments and estimated taxes, but excluded operating costs, taxes and utilities, to expiry.
- b) As at October 31, 2019, the Company has a land lease agreement commitment with respect to the land at the mine site, for \$132 per year which is currently being renegotiated. The Company also has ongoing commitments on the exploration and evaluation assets of approximately \$220 per year increasing over the next 5 years for the AJC properties (see Note 9).
- As at October 31, 2019, the Company has management contracts to officers and directors totaling \$450 per year, payable monthly, expiring in April 2022 and US\$236 per year, payable monthly, expiring in August 2021.

13. Capital Disclosures

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders. The Company considers the items included in the consolidated statements of changes in equity as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements, sell assets to reduce debt or return capital to shareholders. The Company is not subject to externally imposed capital requirements and there were no changes to the capital management in the period ended October 31, 2019.

14. Earnings per Share

The Company calculates the basic and diluted income per common share using the weighted average number of common shares outstanding during each period and the diluted income per share assumes that the outstanding vested stock options and share purchase warrants had been exercised at the beginning of the year.

The denominator for the calculation of income per share, being the weighted average number of common shares, is calculated as follows as 49,646,851 shares for all periods. As at October 31, 2019 and April 30, 2019, all stock options and warrants outstanding were excluded from dilutive weighted average shares outstanding as they were anti-dilutive.
